

WELCOME TO THE WORLD OF WEB3 SPORTS PARLAYS

WHITEPAPER

INTRODUCTION:

THE FUTURE OF SPORTS PARLAYS

Welcome to **ParlayIt** — a next-generation, Web3-powered platform redefining competitive play.

Built for thinkers, strategists, and prediction enthusiasts, ParlayIt fuses skill-based gaming, AI intelligence, and community-driven insights into one seamless experience. No house, no luck — just strategy, innovation, and empowerment.

At ParlayIt, our ecosystem is built around three powerful experiences:

Strategy-Based Games - Compete in immersive, skill-driven games where your decisions and tactics determine the outcome. No luck — just pure strategy.

AI Predictions Hub - Gain access to cutting-edge predictions generated by our AI-powered analytics engine. Join the Parlayer community and leverage smart data like never before.

P2P Marketplace for Picks - Buy and sell strategic picks with fellow players in our decentralized marketplace. Empower the community. Trade knowledge. Win smarter.

OUR MISSION

At ParlayIt, our mission is simple:

To empower strategic thinkers and prediction enthusiasts through technology, community, and decentralization.

We aim to reshape the way players engage with competitive strategy and data by removing outdated systems, enabling transparency, and giving players full ownership of their experience. Our key goals are to:

Champion Strategic Gameplay

ParlayIt puts skill at the center. Our platform hosts a range of competitive, logic-driven games where players win through insight, not chance. No odds, no house — just mind vs. mind.

Unlock AI-Powered Predictions

Our intelligent prediction hub gives players access to real-time, data-backed forecasts generated by ParlayIt's AI. It's not just about playing — it's about making smarter decisions with smarter tools.

Fuel Peer-to-Peer Collaboration

The community is the core. Trade picks, form alliances, and share strategies through our decentralized marketplace and our interactive FriendZone — built by players, for players.

Push Web3 Innovation

ParlayIt is built on blockchain for full transparency, ownership, and autonomy. We leverage cutting-edge AI + Web3 to create a platform that rewards participation, creativity, and trust.

PLATFORM FEATURES

ParlayIt offers a range of features designed to elevate your strategic gameplay experience. Our platform empowers users to enjoy flexible, interactive, and competitive environments built around skill, data, and community — all powered by Web3 technology.

PLATFORM FEATURES

A: FLEXIBLE PARLAYING

At ParlayIt, we believe that you shouldn't lose everything if a single pick in your parlay doesn't hit. With **flexible parlays**, you can still win even if you miss one or two legs. This gives you more opportunities to succeed while reducing the frustration of traditional all-or-nothing formats.

B: DRAFT A PARLAY

The **Draft a Parlay** feature combines the best of fantasy-style drafting with strategic play. Imagine drafting picks for your team — but in this case, you're drafting parlays against other users. This brings a new level of strategy and excitement to every game you play.

PLATFORM FEATURES

C: PARLAYIT GAME MODES

Free Play Mode

Jump into casual games designed for fun, strategy, and growth. Free Play lets users explore a variety of point-based challenges without any entry requirements — all while sharpening their skills and testing predictions. Compete on leaderboards, earn rewards, and unlock **exclusive prizes** just by playing smart.

Advanced Play Mode

Step into competitive territory with high-stakes pots and multi-round tournaments. In Advanced Play, users enter skill-driven games where points are earned through strategy, accuracy, and decision-making. From solo pots to bracketed showdowns, top performers claim the biggest rewards — all powered by Web3 transparency and fairness.

PLATFORM FEATURES

D: FRIENDZONE: COMMUNITY CONNECTION

FriendZone is where ParlayIt users come together to chat, compete, and build connections:

Challenge Friends

Invite your friends for head-to-head matchups.

Share Tips & Picks

Engage with other users, share insights, and learn new strategies.

Grow Your Network

Build a following of users who value your expertise, and gain recognition within the community.

PLATFORM FEATURES

E: LEADERBOARDS & THE VIP ZONE

Global Leaderboards

Climb the ranks by proving your skills across all of ParlayIt's strategy-based games. Our global leaderboard rewards consistency, accuracy, and smart gameplay — showcasing the top performers in the competitive gaming arena.

VIP Zone

The VIP Zone unlocks exclusive access to ParlayIt's most advanced tools and features. VIP members can:

- Buy and sell strategic picks directly with other players in a Web3-powered marketplace
- Access AI-generated predictions curated from real-time performance data
- Gain early entry into special tournaments and pots
- Elevate their strategy with premium insights and tools

This is where elite players sharpen their edge — and turn knowledge into rewards.

PLATFORM FEATURES

F: BUY/SELL MARKETPLACE

The **Buy/Sell Marketplace** is a player-powered economy where users can monetize their strategic insights. If you're a skilled player with a strong track record, you can list your picks or predictions for sale. Others can purchase these to enhance their own strategy — creating a collaborative yet competitive ecosystem.

This isn't just a marketplace — it's a reputation system. As players gain success, their picks become more valuable, building credibility and influence. Whether you're looking to earn from your game sense or learn from the best, the marketplace is where strategy meets value.

G: AI-CURATED PICKS

The **AI-Curated Picks Hub** is your intelligent co-pilot in strategic gameplay. Leveraging vast datasets, our AI analyzes player trends, past performance, community outcomes, and behavioral patterns to generate real-time, **data-driven predictions**.

These AI picks are not generic tips — they are personalized, adaptive suggestions designed to help you identify high-value opportunities in complex games.

NFTS, REWARDS, AND INCENTIVES

ParlayIt embraces NFTs as part of our ecosystem, allowing users to purchase unique profile pictures (PFPs) that represent their identity on the platform. These NFTs can also be used to level up, unlocking additional features and rewards. As you engage more with the platform, your NFT can evolve, providing further incentives for participation and enhancing your overall experience.

As you engage with the platform, your NFT will level up over time, eventually reaching the Legendary NFT tier, which unlocks exclusive access to the VIPZone, where premium features and unique rewards await.

We believe in rewarding our members for their achievements. Earn ParlayIt tokens [PLY], mulligans, and other exciting rewards for your successes. Yes, you read that correctly, mulligans - allowing you to remove a single leg from a parlay and boost your chances of success.

TOKEN DISTRIBUTION

20%

Liquidity Pool

20% of the initial total token supply is designated for the liquidity pool (LP), ensuring sufficient liquidity for trading and stability within the ecosystem. This allocation enhances the user experience by providing seamless access to liquidity for token holders.

35%

Rewards

The majority of the tokens allocated for rewards will be put towards staking (27%), with the additional 1% allocated towards NFT airdrops and 7% allocated for in game rewards. There will be an inflation rate of 5% and a rake fee of 2%, with 1% directed towards supporting the team and the other 1% reinvested into the parlay of the week pots.

5%

Marketing

To fuel adoption and awareness of the ParlayIt platform, 5% of the initial total token supply is allocated for marketing initiatives. This allocation supports comprehensive marketing campaigns aimed at increasing platform visibility and attracting users.

15%

Presale/VC

10% of the initial total token supply, is reserved for the presale and 5% for venture capital investments. This allocation facilitates the platform's growth and development by securing necessary funding.

10%

Team Allocation

To incentivize the team's dedication and commitment to the project, 10% of the initial total token supply is allocated for the team.

10%

Funding Reserves

An additional 10% of the initial total token supply is set aside for funding reserves, bolstering liquidity provision efforts and ensuring robustness in the platform's trading infrastructure.

5%

Developers

In recognition of their pivotal role in platform development and maintenance, 5% of the initial total token supply is allocated to the development team. This allocation serves as a reward for their contributions to the project's success.

TOKEN INCENTIVES

To encourage platform engagement, ParlayIt offers the following incentives for token holders:

Active Participation Rewards

Earn PLY tokens for placing parlays, buying or selling picks, and engaging with the community.

Staking Rewards

Stake your PLY tokens for rewards such as additional tokens or access to exclusive features.

Referral Programs

Invite others to join ParlayIt and earn bonuses when they sign up and engage with the platform.

CONCLUSION

ParlayIt is redefining what it means to compete in the digital era. Built on web3, our platform fuses strategy, community, and innovation — giving players the tools to not just play, but **profit, learn, and grow** in a dynamic, decentralized environment.

With game-changing features like **Draft a Parlay**, the **Buy/Sell Marketplace**, and exclusive **AI-Curated Picks**, players can showcase their skills, monetize their knowledge, and gain a competitive edge — all while participating in **free-to-play competitions with real prizes**.

Whether you're here to test your game IQ, build your reputation, or tap into next-gen prediction tools, **ParlayIt is where play meets purpose**.

This isn't just another platform — **it's a community-powered revolution for strategic gamers**.
